

ScanPro® 1100/2200/2000 Recommended Computer Specifications When Purchasing a New Computer

| <u>Computer Hardware</u> | <u>Minimum Recommended Computer System</u> | <u>Suggested</u> |
|--|--|------------------|
| Processor Speed | Intel® Core™ i5 | Higher |
| Computer Memory (RAM) | 8GB Memory | Higher |
| Hard Drive | 500 GB HD | Higher |
| Optical Media | 24X CDRW/DVD or equivalent | Same |
| Monitor | VGA/SVGA/XSVGA | Same |
| Compatible Operating Systems (32bit and 64bit) | 64 Bit Win 7, 64 Bit Win 10 | Same |
| Computer-to-Scanner connection | USB3 | Same |

These general minimum recommended requirements should be followed to insure proper performance

ScanPro® 2200Plus/3000 Recommended Computer Specifications When Purchasing a New Computer

Our computer recommendation is the DELL Optiplex Series. We have used Dell Optiplex computers for the last 8 years in the setup and test of our ScanPro products and they have consistently provided excellent performance.

| <u>Computer Hardware</u> | <u>Minimum Recommended Computer System</u> | <u>Suggested</u> |
|--|--|------------------|
| Processor Speed | Intel® Core™ i5 or i7 | Higher |
| Computer Memory (RAM) | 8GB Memory | Higher |
| Hard Drive | 500 GB - 1TB HD | Higher |
| Optical Media | 24X CDRW/DVD or equivalent | Same |
| Monitor | VGA/SVGA/XSVGA | Same |
| Compatible Operating Systems (32bit and 64bit) | 64 Bit Win 7, 64 Bit Win 10 | Same |
| Computer-to-Scanner connection | USB3 | Same |

These general minimum recommended requirements should be followed to insure proper performance

ScanPro® i9300 Recommended Computer Specifications When Purchasing a New Computer

| <u>Computer Hardware</u> | <u>Minimum Recommended Computer System</u> | <u>Suggested</u> |
|--|---|------------------|
| Processor Speed | Intel® Core™ i7 | Same |
| Computer Memory (RAM) | 8GB DDR3 | Higher |
| Hard Drive | 750 GB SATA, 10,000 RPM 3.0Gb/s Hard Drive with Data Burst Cache™ | Higher |
| Optical Media | 24X CDRW/DVD or equivalent | Same |
| Monitor | VGA/SVGA/XSVGA | Same |
| Compatible Operating Systems (32bit and 64bit) | 64 Bit Win 7 or Win 10 | Same |
| Computer-to-Scanner connection | USB3 | Required |

These general recommended requirements should be followed to insure proper performance

Recommended Computer Specifications When Using AUTO-Scan®Pro or PowerScan™ Productivity Suite

Automatic scanning requires a lot of computer resources. If the computer resources are not sufficient, scanning speed must be reduced. The recommendations shown here are meant as a guide to selecting computer resources for your application

The PowerScan Productivity Suite for the ScanPro 3000 microfilm scanner utilizes advanced OCR technology to provide powerful tools for information searching, linking database content and creating word searchable documents from your microfilm. These OCR tools require a computer with sufficient resources to quickly process large amounts of information. The recommendations shown here are meant as a guide to selecting computer resources for these applications.

| <u>Computer Hardware</u> | <u>Recommended Computer System for Scan Speeds to 15 Images per minute</u> |
|--------------------------|--|
| Processor Speed | Intel® Core™ i5 or i7 |
| Computer Memory (RAM) | 8GB Memory |
| Hard Drive | 500 GB HD |

| <u>Computer Hardware</u> | <u>Recommended Computer System for Scan Speeds to 50 Images per minute</u> |
|--------------------------|--|
| Processor Speed | Intel® Core™ i7 |
| Computer Memory (RAM) | 8GB DDR3 |
| Hard Drive | 750 GB - 1 TB SATA, 10,000 RPM 3.0Gb/s Hard Drive with Data Burst Cache™ or higher |

These general minimum recommended requirements should be followed to insure proper performance
